SUMMARY

As an experienced **Full Stack Developer**, I have a strong background in front-end and back-end technologies and several years of experience in web development.

I am proficient in front-end frameworks like **Vue.js** and have expertise in back-end frameworks like **Laravel**. Recently, I acquired skills in **Node.js**, **Express.js**, and **React**. I have also worked with various databases, including **MySQL** and **PostgreSQL**, and I have recently learned about **MongoDB**, a **NoSQL** database. I am proficient in writing efficient **SQL** queries. As a **Full Stack Developer**, I have experience developing responsive and user-friendly web interfaces using **HTML5**, **CSS3**, **JavaScript**, **Bootstrap**, and **Tailwind CSS**. I am also skilled in integrating third-party **APIs** and services, such as **Google Translator** and **Stripe**.

I am a **self-motivated**, **detail-oriented** developer with strong **problem-solving** skills, making me a valuable addition to any project.

WORK EXPERIENCE

Full Stack Web Developer

Dawat University
📅 Mar 2019 - Mar 2023
Kabul, Afghanistan

- We have developed a management system to cover the functions of all departments, including exams, faculty, administration, finance, and the library.
- We have developed an interactive portal for students and lecturers where they can communicate, share resources, and use it as a learning management system.
- Transfer of the system from the old hosting to the new AWS platform.
- Delivered training on system usage to all non-technical staff at the university.
